

March 15, 2000

To whom it may concern;

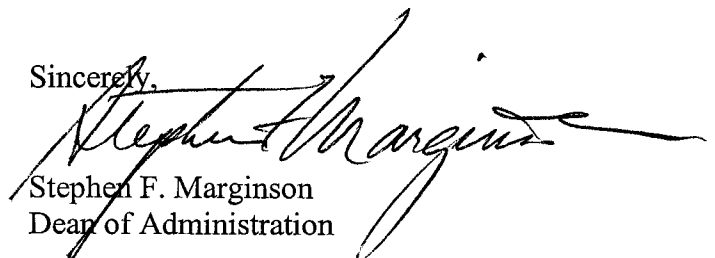

It is my pleasure to write to you on behalf of Meier & Loftus.

Hugh and George are very well known to us here at the Community College of Rhode Island. They were the architects of a very sophisticated and successful wiring plan for all of our campus locations. The project was completed on time and on budget, and brought a comprehensive network of voice, data and video to over 1500 locations. Meier & Loftus have since served us as consultants for several other projects including a distance learning studio, and we look forward to a continuing association with them as we expand our facilities over the next 3-5 years.

As Dean, I have personally interacted with Hugh and George throughout their work here, and have always been extremely impressed by their technical expertise and the professional manner they employ as they associate with a wide range of problems and personalities. Their friendly demeanor is a refreshing, and a valuable asset that I have rarely seen in other firms that we have retained.

Meier & Loftus have earned my respect and I recommend them without reservation. Please do not hesitate to call me if you require additional information.

Sincerely,

Stephen F. Marginson
Dean of Administration
